

CLUSTER HEADACHE SIG

Annual Report 2018/2019

During this time period our group planned to organize a Worldwide Campaign on Cluster Headache destined to the Education with the following stratifications:

1. Health personal
 - a. Medicine Doctors
 - i. Diagnosis
 - ii. Treatment Options
2. Patients
 - a. Symptoms
 - i. Identification
 - ii. Management
3. Patients Family members
 - a. Disease
 - i. Recognition
 - ii. Management
 - b. Disability
 - i. Control
4. Health authorities
 - a. Recommendations
5. General population
 - a. Media reports
 - b. Website on Cluster Headache with appropriate links to sites with relevant information on the disease with different complexity levels, like:
 - i. International Medicine Doctors
 1. With an e-mail for queries
 - ii. Patients and families
 1. With another e-mail for queries
 - iii. Secretariat support for the e-mail management
 - iv. Technical support from the CH SIG members

Such plan was included in the proposal of the CHSIG Budget 2019 (attached document), but it was not approved by the IHS Board what made impossible to reach our goals.

Now, alternatives to do it without IHS financial support will be discussed in the next CHSIG meeting to be held in September 2019 in Dublin.

The unique target not dependent of the IHS financial support namely the International Consortium for the Genetic Study of Cluster Headache was effectively done and recently launched in Porto, Portugal, and it will be opened to all the CHSIG members and elsewhere interested in the subject

José M. Pereira Monteiro, MD, PhD

CHSIG Chairman

IHS COMMITTEE BUDGET REQUEST FORM - 2019 -

Please complete the form with a brief outline of your proposed expenditure plans. Include a breakdown of the key elements / items of expense, as well as proposed timings if possible. Please also rate your budget request by priority. Return via email to Carol Taylor by 22 October 2018

Attach additional documentation if necessary to provide further explanation behind your requests(s).
