

Report of the Education Committee International Headache Society September 2018

The Committee continues to be involved in all aspects of headache education in the Society.

AWARDS

The Chair and members have worked hard to help review support and review several award applications for the current year. Details on these awards are outlined by our Honorary Secretary, Stefan Evers, in the IHS July Newsletter, which is now online at <http://www.ihs-headache.org/>

The following is a synopsis of the number of awards given for 2018. Details are online at the IHS site: <http://www.ihs-headache.org/awards-training-newsletters/newsletter>

IHS Headache Fellowship

Two Candidates chosen this year.

IHS Headache Trainee Programme

Two individuals approved for programme.

IHS Short Stay Scholarships

Two individuals were chosen for these scholarships.

IHS Masters Research Grants

Three individuals chosen all to attend University of Copenhagen Master of Headache Disorders Program.

VP PROGRAMME UPDATE

The following is a overview of the history of our very valuable VP Programme, and all have been done to date with the exception of Lithuania programme to be completed in September. These VP programmes have proven to be very successful and sought after by many meetings. The feedback has been helpful in directing future support for programmes in the future.

4. India Headache update December 2018, is currently under review.

OTHER ACTIVITIES

JOURNAL

The committee views the journal ***Cephalalgia*** as an excellent educational, clinical and scientific, resource for our membership. The new journal ***Cephalalgia Reports*** is now an excellent place to submit material and the site for this journal outlines its mission very well:

“Published on behalf of the International Headache Society, *Cephalalgia Reports* is a peer reviewed, open access publication providing an international forum for original research papers, review articles, clinical perspectives, case reports, technical reports and short communications.”

The site of the new journal is:

<http://journals.sagepub.com/home/rep>

CORE CURRICULUM

The committee continues to review our core curriculum and has received some feedback from other societies to date. We will be having a teleconference this fall to discuss any potential updates. We think that further additions of procedures and imaging categories might be helpful. We welcome all input to this process. The document can be found: <http://www.ihs-headache.org/learning-centre/core-curriculum>

Respectfully submitted

R. Allan Purdy MD, FRCPC, FACP, FAHS
Chair of the Education Committee of the IHS
