

Science and Research committee

2018 annual report

The 2018 fellowship attracted six applications.

The fellowships were awarded to

- Olivier Brock from Belgium, who will perform research on 'The role of the visual thalamus in migraine' at King's College London, UK, with Philip Holland, commencing August 2018
- Anisa Dehghani from Iran, who will perform research on 'Parenchymal neuroinflammation and pain behaviour upon optogenetically-induced cortical spreading depolarization in mice' at Leiden University Medical Center, UK, with Arn van den Maagdenberg, commencing December 2018
