

Annual report

SIG Secondary Headache

24/9/20 – Guus Schoonman

Summary

The SIG mainly operates as a study group and informal discussion forum, and provides input for teaching courses.

Projects

We did a delphi study on potential “green flags for headache”. A paper with the outcome of this study is currently under review.

Communication

The SIG members mainly communicate through email. In 2020 there is no formal meeting due to Covid-19
