IHS Electronic Media Committee

Annual Report 2021

Social Media Accounts

Our committee is currently administrating the following social media accounts on behalf of the IHS. From the four accounts, our main priority is the Twitter account, as it has been identified the main media for promoting activities.

B. Youtube Channel I(HS International Headache Society):

In June 2020 we launched the IHS YouTube channel and currently counts 480 subscribers.

The Channel uses the new IHS visual ID and aims to promote IHS through educational videos. Currently, the channel features videos from webinars and awareness campaigns.
The YouTube channel is personalized and can be additionally accessed through the new IHS website by members only.

We are currently exploring ways to increase visibility among the wider public, while keeping the members only benefits.

### C. Social Media Promotions:

#### a. Cluster Awareness Day / Brain Awareness Week 2021 SM campaign

We prepared a social media campaign for the Cluster Headache Day 2020 (March 21st) with videos and posts in different languages. Due to COVID-19 outbreak we decided to minimize the campaign to just the IHS social media without the participation of affiliated societies.

b. Migraine Awareness Month campaign

We prepared a social media campaign for the Migraine Awareness Month 2021 (June 1st-June 30th 2021) with videos and posts in different languages. Primary focus was to share videos in our Youtube channel and increase visibility in all IHS SM channels. A total of 43 educational and campaign awareness videos were created in collaboration with the Educational committee in different languages. A specific visual ID was used for the campaign.

c. **International Headache Congress 2021**

This campaign is ongoing with higher emphasis in the coming weeks up to end of Sep 2021.

We have also created a visual ID for the #IHC2021 campaign. We are working with conventus and @EHF social media team to develop the campaign for #IHC2021 using shared resources.
