

Annual Report – 2022

Classification Standing Committee

Chair: Peter J Goadsby
Secretary: Stefan Evers

Since setting out some errors, providing some clarity on terminology and offering to hear from members (1), we have had a range of interesting feedback.

The range of subjects is from the definition of chronic migraine (2), through first bite syndrome (3) and greater auricular neuralgia (4).

Some discussion has been had on aligning pediatric GI disorders in some fashion (5), which Dr Amy Gelfand has participated in on our behalf.

The time is coming for an in-person meeting and I expect Seoul may be a good choice.
